Nationality: American | LinkedIn: [/Win-Pomerantz](#) | Portfolio: [win-pomerantz](#) | GitHub: [/winpom](#)

Passionate Full Stack Web Developer with expertise in JavaScript, React, Node.js, and configuration management. Recently completed an intensive Full Stack Web Development course at the University of California, Berkeley. Demonstrated ability to execute projects from ideation to deployment, solving complex problems and delivering high-quality solutions in international settings. Skilled in collaborating with cross-functional teams and enhancing front-end user experiences, leveraging a strong background in brand and digital marketing. A proactive and enthusiastic team player, as well as an independent contributor, eager to contribute and grow in a dynamic development environment.

SOFT SKILLS

- Proficient in project and time management
- Skilled in stakeholder and people management
- Experienced team lead with expertise in configuration management
- Capable of providing strategic vision and direction
- Adept at implementing and adapting complex technologies
- Skilled at navigating and contributing to large, international organizations
- Excellent communication and collaboration skills

TECHNICAL SKILLS

Languages/Frameworks: JavaScript (ES6+), HTML5, CSS3, React, Node.js, Express, Handlebars, jQuery

Databases: MongoDB, MySQL, SQL, NoSQL

Tools/Technologies: Git, Agile Development, CI/CD, DevOps, Adobe Photoshop, RESTful APIs, Certified ScrumMaster

PROJECTS

ReadyCheck Mobile | [GitHub Repository](#) | Work in Progress

- **Summary:** Utilizing my spare time to develop the ReadyCheck webapp for deployment in a live mobile environment, focusing on optimization, scalability, and virtualization. Incorporating best practices for end-user and potential investor readiness.
- **Role:** Project Lead (team of four), Full Stack Developer
- **Technologies:** React Native, Expo, AWS

ReadyCheck | [GitHub Repository](#) | [Deployed Project](#)

- **Summary:** Led a team to create an application for users to organize events quickly and efficiently. Designed for scalability, implemented Git branch protection, and managed code integrity for seamless collaboration.
- **Role:** Project Lead (team of four), Full Stack Developer
- **Technologies:** Git, React.js, Node.js, GraphQL, Apollo Client, MongoDB, Socket.IO, Daisy UI

The Dog Breed Quiz | [GitHub Repository](#) | [Deployed Project](#)

- **Summary:** Created a multi-question quiz that processes user input to generate specific dog breed results using an online API. Standardized inconsistent data into hard-coded generalized attribute categories to ensure user answers would lead to meaningful outputs.
- **Role:** Project Lead, Front End & Back End Developer

- **Technologies:** HTML, CSS, JavaScript, Bootstrap

WeatherApp | [GitHub Repository](#) | [Deployed Project](#)

- **Summary:** Developed an application that utilized local storage to save and display recent user searches. Designed to take user inputs and provide a week's weather forecast for the specified location, the application made two API queries: the first to retrieve city coordinates, and the second to generate the weather data based on those coordinates.
- **Role:** Sole Developer
- **Technologies:** HTML, CSS, JavaScript, jQuery, API, Local Storage

EXPERIENCE

Marketing Consultant – Multiple Clients

Sia Partners (Consulting) Nov 2021 – Apr 2023
